

All

Using black as a background for a logo with a dark green color makes it barely visible.

Images not stretched
Please draw our attention to the stretched images

Images on most pages are stretched vertically and not cropped to fit the dimension of the placeholders. screenshot is an example. It's also notable on the [projects page](#).

Gardenia At International Meeting Point

GARDENIA At International & Conference For Building &

[Home](#)

Our Services

- Slider arrows are not aligned vertically to the middle.
- slider icon (left and right) are not aligned to the center of the green circle.
- When hovered over the slider, it doesn't show expand icon, only dark overlay as shown below in middle picture.
- When hovered over images, there is no expand icon, only dark overlay.

- slider arrows aligned vertically to the middle of the card that includes the title of the service and read more button
-When hovered over the slider, it doesn't show expand icon because there is a button to read more but in The middle pictures there are no buttons

Our Recent Project

- Slider pagination arrows are aligned to document edges, there are zero margins on both sides. They should be at least 10 pixels.
- Arrows are not aligned inside the middle of the black circle.

Projects

Our Projects

- Show All
- Mega Projects
- Commercial
- Villas

Projects names we
Will make it take
Two lines

- Project names shouldn't be trimmed. Allow to spread over lines instead.
- Top filter doesn't work, most likely due to javascript error in footer scripts.

Careers

CAREERS OF GARDENIA LANDSCAPE

Test Name test@mail.com

Phone Number (Optional) Choose File No file chosen

Please fill out this field.

- Although it says "optional" but the marked as required in code as shown below:

It is not a security issue because the file is not uploaded and the message did not reach the database but the problem is the appearance of the message only

```

Elements Console Sources Network Performance Memory Application Security Audits Asset Downloader Ove
<form method="post" action="..." enctype="multipart/form-data" id="active-contact-form">
  <div class="row">...</div>
  <div class="row">
    ::before
    <div class="col-md-6">
      <div class="form-content">
        <input class="form-control" type="text" name="phone" placeholder="Phone Number (Optional) required">
      </div>
    </div>
    <div class="col-md-6">...</div>
  </div>
  ::after
</div>
  <div class="row">...</div>

```

mail input will bypass such input "test@test". It's suggested to use custom javascript validation for phone numbers are not validated correctly when added. It's suggested to utilize Google's libphonenumber for validation such as this one: link.

certain file types should be allowed to upload. I tested uploading a php file and it uploaded normally which is a major security concern and could easily lead your servers to be hacked.

[اقرأ المزيد](#)

- The Arabic version, arrows show be flipped. The following code is suggested to fix it

```

1 .footer-widget ul li::before {
2   content: "\f053" !important;
3 }

```

A script added to the footer generates an error on all pages. The error is caused by the high it should be **\$(document).ready** and not **document.ready**

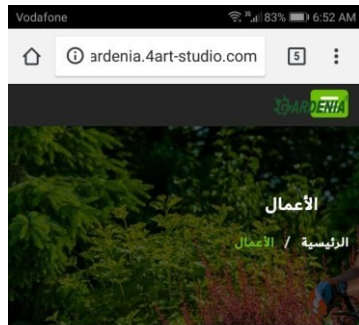

```

876 <script>
877 document.ready(function () {
878   IsotopeDocs["hero-demo"] = function (t) {
879     "use strict";
880     var e = $(t),
881         n = e.find(".grid").isotope({
882       transformsEnabled: false,

```

Mobile

- Elements are overlapping each other.
- Logo and menu button are aligned to the right in the Arabic version which prevents opening the
- Pages sometimes
- Text such as "تنسيق الحدائق" on the home page is not linkable, only the image. Both should be linked.
- Scrolling on project's page is buggy and is disabled on random occasions.

SEO

- Metas generated on all pages are the same for the keywords, description and author and it's not they are editable for pages from the administration panel.

```
<head>
<meta charset="utf-8">
<meta http-equiv="x-ua-compatible" content="ie=edge">
<meta name="viewport" content="width=device-width, initial-scale=1">
<!-- ===== titles ===== -->
<meta name="description" content="GARDENIA has been in business since 1998 operating on one simple principle providing each customer with high-quality personalized service.
companies.">
<meta name="keywords" content="">
<meta name="author" content="urosd">
```

- Local business information for Gardenia's company is missing. It's strongly suggested added to all pages. An example of what it should be like [shown on this link](#) and the i added should be editable in administration panel for any future modification.

The meta keyword is no longer used by google
