---

### **Career Objective**

Ambitious Agricultural Engineer specialized in irrigation and landscape execution. Seeking an opportunity in a professional environment to apply academic knowledge, gain practical experience, and contribute effectively to the successful implementation of agricultural and landscape projects.

---

### **Education Bachelor of Science in Agriculture – Agricultural Engineering Major**

Faculty of Agriculture, Ain Shams University | Graduation Year: 2025

### **Graduation Project**

- Designed and developed an AI-based machine for sorting and grading orange seeds.
  - Applied machine learning techniques to improve accuracy and efficiency in agricultural processing.
  - Demonstrated practical skills in integrating engineering principles with modern technology.
- 

### **Internships**

#### **Tuxedo Facility Management**

- Specializing in Integrated Pest Management (IPM) by conducting site inspections and executing safe treatment plans. Responsible for monitoring pest activity and ensuring all facility environments maintain high health and safety standards.

#### **Shira Group**

- Gained hands-on experience in modern irrigation systems, including installation, monitoring, and maintenance.
- Assisted in optimizing irrigation efficiency and troubleshooting operational issues.

#### **Land Masters**

- Two-week practical training focused on landscape implementation and irrigation operations in real-world projects.

- Collaborated with the team to ensure timely project completion and quality standards.
- 

### **Skills**

- **Ability to work under pressure and meet deadlines**
  - **Strong teamwork and collaboration skills**
  - **Effective communication with labor and technical teams**
  - **Time management and task coordination**
  - Basic AutoCAD
  - Basic Microsoft Excel
- 

### **Languages**

- Arabic: Native
- English: Fair
